Cities will be revolutionized by new “smart” technologies enabling the transparent and efficient provision of government services, sustainability manners, including new administration methods (Sousa et al., 2022). Of particular interest are the applications of sensors, blockchain and big data processing possible through artificial intelligence (AI) to propose new tailor-made services for citizens (Allam and Dhunny, 2019; Secinaro et al. 2021a). This creates a need for hybrid skills and integration, governance policies and transparency in the use of information (Secinaro et al., 2021b). The literature suggests interesting initial results to increase public energy sustainability (Chui et al., 2018), public safety (Srivastava et al., 2017), transport usability (Agarwal et al., 2015), air quality (Schürholz et al., 2020) or for innovative dialogic approaches (Grossi et al., 2021). Combining the growth of new technologies like artificial intelligence, big data and

blockchain for smart cities' management is also one of the main focuses of European and Italian recovery plans. This track aims to include theoretical contributions, conceptual frameworks, measurement approaches and empirical evidence addressing the following research questions (but not limited to):

- How may artificial intelligence change cities into smart ones?
- How may technology increase dialogic dimensions of cities and smart cities?
- What governance changes required the management of new technologies in smart cities?
- How disruptive may technologies foster cities' recovery?

## Expected contributions:

Papers and presentations.

## Submission Instructions

- Please create or retrieve an existing account here: <https://www.conftool.org/iias-euromena2022/>
- Go to “Your submissions” and select a track
- Please follow the specific instructions given in the call-for-paper
- If prompted, add an attachment

## Calendar

- The deadline for abstract submissions is set on April 3<sup>rd</sup> ;
- Registrations will open by April 18;
- Notification of acceptance will be made by May 1<sup>st</sup>;
- The deadline for full paper submissions is set on May 29;
- The conference will take place on June 27-July 1.

## Open Access

- Participants can opt in for the Open Access program of IIAS;
- Their full papers will be reviewed and channeled to partner journals of the IIAS.

## Registration

- Participation in the conference is conditional upon the payment of registration fees;
- The rates and all useful information will be communicated soon on <https://iias-euromena-conference2022.org>;
- The registration fee cover: participation in the conference, in a reception, in a dinner
